Redistricting is when we redraw districts so each has the same number of residents.

Total Census
count = 16

Number of
districts = 4

$$16 \div 4 = 4$$

Ideal number
of people in
district = 4

**What is
Redistricting?**

Over time, districts become uneven in population.

What is
Redistricting?

Every ten years, the district lines have to be redrawn to make each district even in the number of people again.

Total Census count = 20

Number of districts = 4

$$20 \div 4 = 5$$

Ideal number of people in district = 5

What is Redistricting?

The way the lines are drawn can be used to take away **minority voting rights.**

Minorities make up only $\frac{1}{4}$ in all four districts

Why does Redistricting Matter?

When people organize, we can elect candidates of our **community's choice**.

Minorities
make up $\frac{3}{4}$
of this
district

If a majority
can be
drawn, the
Voting
Rights Act
requires it

**What are the real life
impacts of gerrymanders?**

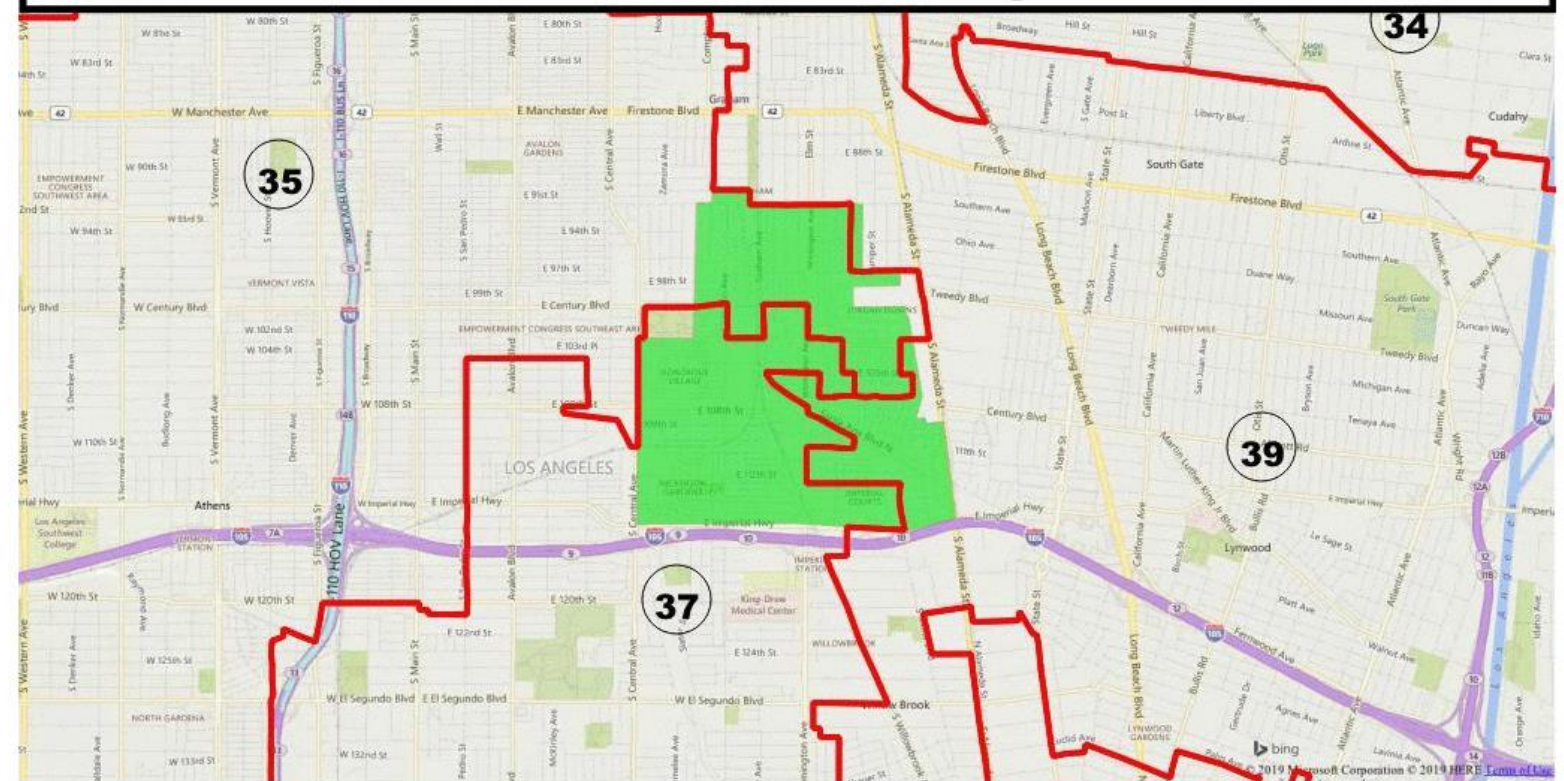

**In a time of
need, Watts
was ignored.**

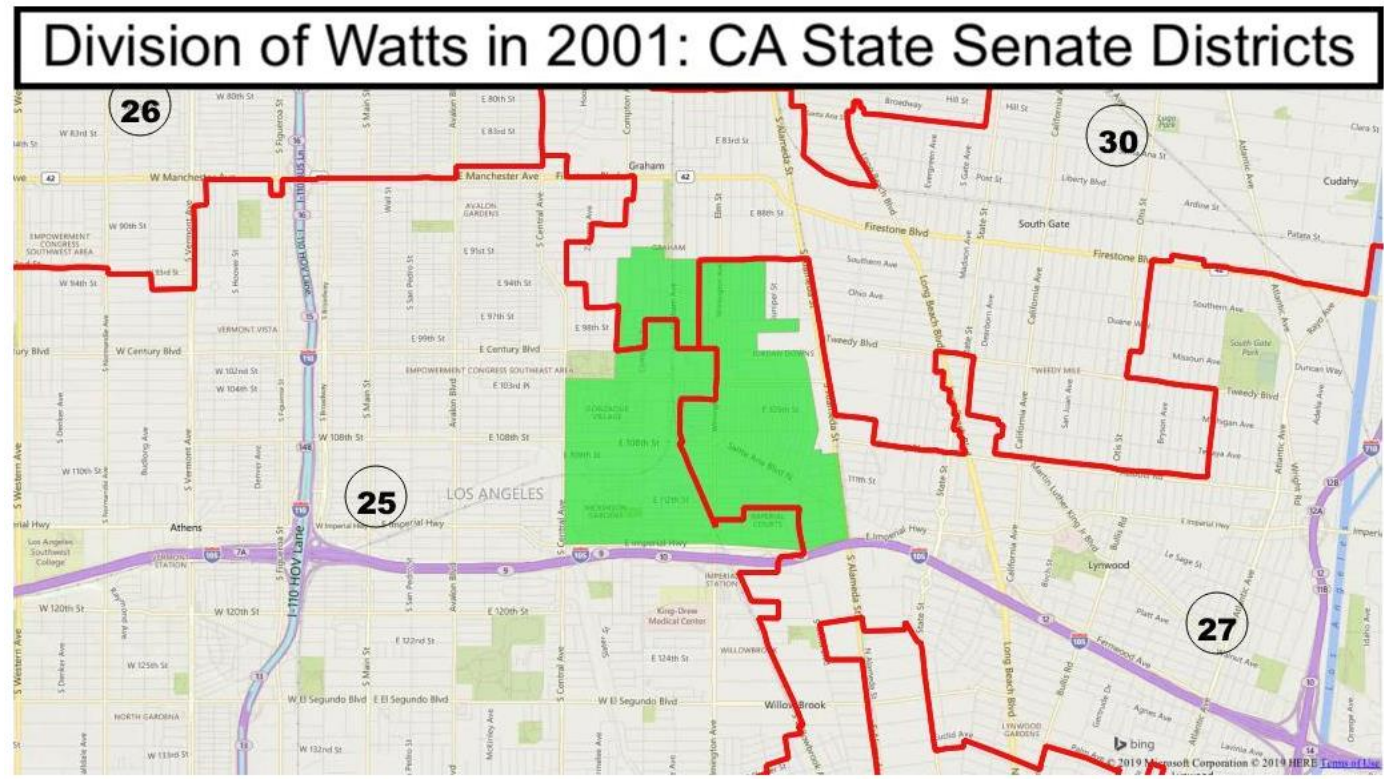

In 2001, Watts was split by incumbents into 3 districts at the Congressional level.

Division of Watts in 2001: CA Congressional Districts

Why? Because the Watts neighborhood was split by district lines

In 2001, Watts was split by incumbents into 3 districts at the state Senate level.

Why? Because the Watts neighborhood was split by district lines

**Because of
redistricting,
community voices
and needs were
abandoned.**

“At the time of the 2003 flood, I remember our office trying to be very responsive, but there was a lot of ping-ponging of constituents between elected representatives. Residents weren't sure who actually was their member of Congress.”

Watts is cut into three different Congressional and state Senate districts. Residents who live on the same street may live in different districts. There was a lot of unnecessary frustration for constituents during a difficult time.

This would have never happened if all of Watts belonged to one district.”

- Romulo Rivera, former Congressional staffer

In 2008, an unusual coalition of people from left, right and center pushed for **Prop 11's** redistricting reform.

PUBLIC ACCESS

In all, the California Citizens Redistricting Commission:

- Held over 100 public meetings
- Met in 32 cities over an eight month period.
- Received input from over 20,000 members of the public

**After 2011, leaders united to testify about Watts before the CA Citizens Commission.
Watts was made whole.**

Redistricting matters because it can lift community voices

Community Mapping: Let's get started!

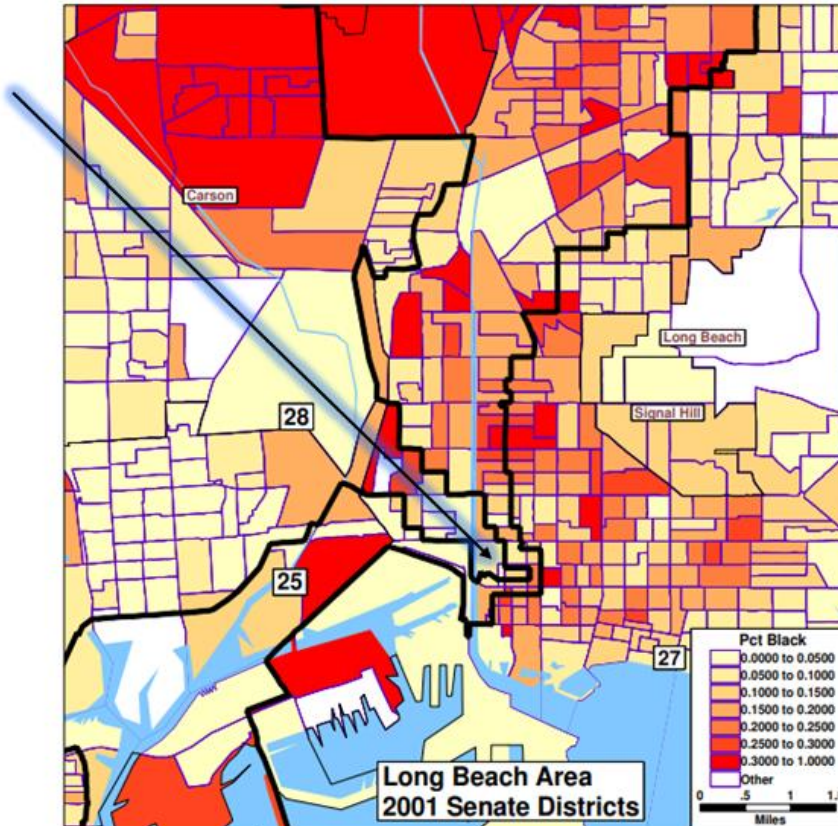

Listen for stories that cover the 3 Cs:

- **CULTURE:** How would you describe the **people** who are part of your community? What do we have in common? What is our history? What are our languages? What do we celebrate? What do we value?
- **CONCERNS:** What **issues** need attention from government? What community projects need resources? Are there examples of elected officials ignoring our concerns?
- **COUNT:** Is there **data** we can present that strengthens our stories? (Number of people in our community, % POC, income levels, distance from hospitals, lack of greenspace)

Community Mapping: What are the 3 C's?

In 2001, the Legislature gave Long Beach the "boot."

Culture/Character:

- Washington neighborhood has a lot of working class Latinx families. When we have community gatherings, you will hear a lot of Spanish spoken.

Concerns:

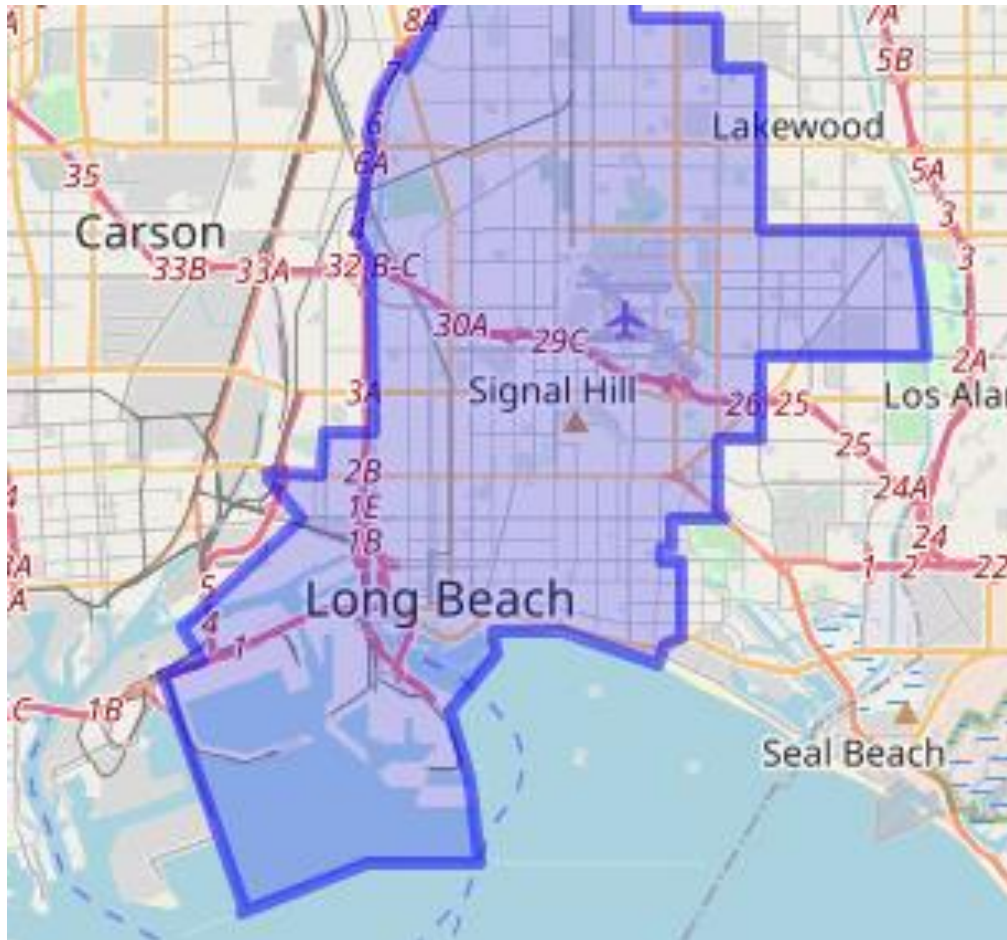

- Mrs. Zazueta: "At least every other day, I have to tell my 8-year-old daughter that she can't play outside with her friends. She has asthma and we live in an area known as 'Asthma Alley.' We had to go to the hospital night after night because Emma would wake up gasping for air."

Counts:

- Washington neighborhood is one of the poorest parts of Long Beach, with almost 20% unemployment.
- 29% of households surveyed are home to at least one adult that has asthma, and 18.9% are home to at least one child with asthma.

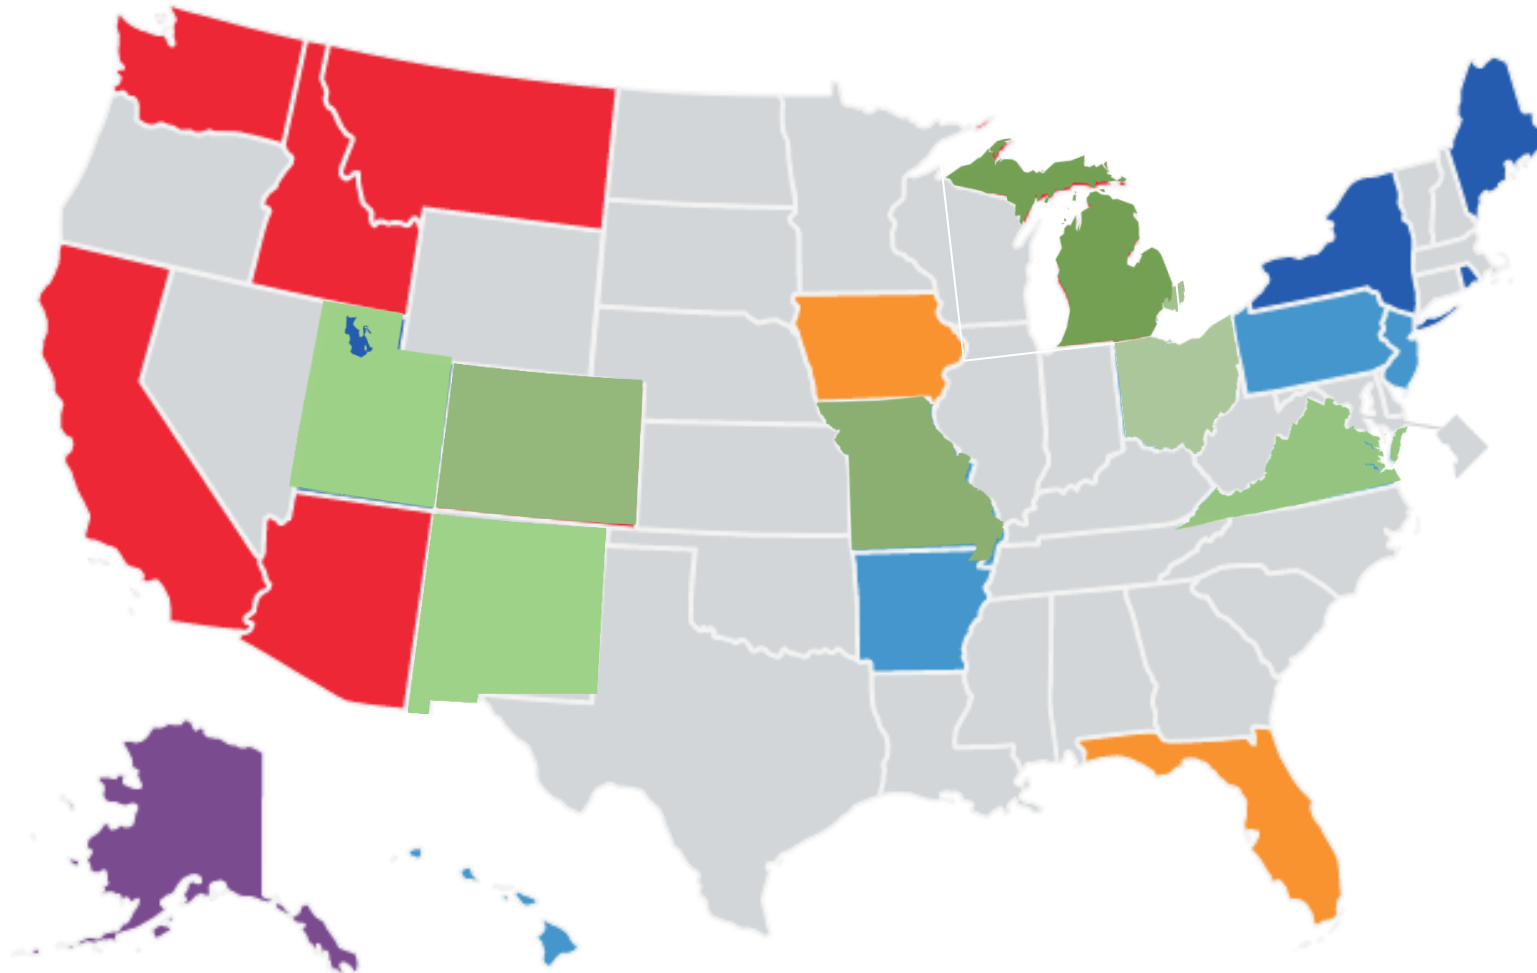

Community Mapping: Practice Mapping

Community testimony helped unify Long Beach

With one representative, issues like the health of communities impacted by the ports and freeways are starting to be addressed.

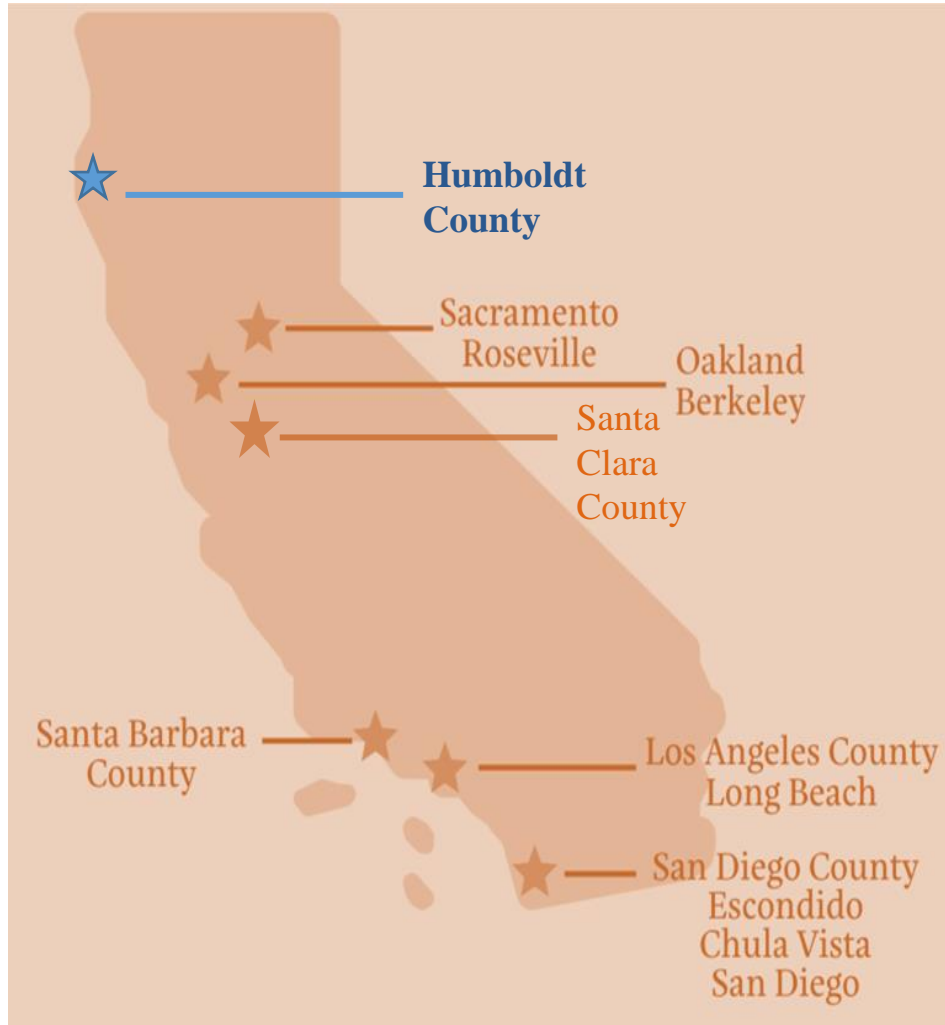

CA sparked a Redistricting Revolution

**7 states have adopted
Redistricting Reforms in
2018-2021**

- **Colorado**
- **Michigan**
- **Missouri**
- **New Mexico**
- **Ohio**
- **Utah**
- **Virginia**

CA sparked a Redistricting Revolution

California cities and counties also moved to independent and advisory commissions including:

- Berkeley
- Chula Vista
- Escondido
- **Humboldt County**
- Oakland
- Long Beach
- Los Angeles City and County
- Roseville
- Sacramento
- San Diego City and County
- San Francisco City and County
- Santa Barbara County
- Santa Clara County

3 Driving Principles

Adopting equitable district maps

**Creating a
Transparent and
Inclusive Process**

**Centering
Community Input**

How can you help communities participate?

Listen to the stories of communities

- Explain how to give input
- Organize community-centered redistricting workshops
- Adopt a free mapping software platform like [Districtr.org](https://www.districtr.org/) for input

How can you create a transparent and inclusive process?

- Allow community leaders to submit district proposals for consideration
- Hold meetings / webinars with videos turned on
- Maps are visual!
- Give people time to comment on draft maps
- Think about language and disability access

How can you lead us to more equitable government?

- Bring your lived experience, listen to others' stories
- Engage your fellow commissioners.
- Document your experience.
- Set an example for the country.
