

ARGUMENT IN FAVOR OF MEASURE S

Everyone knows the importance and value of having quality schools. From higher achieving students, to greater neighborhood safety, to increased home values, quality schools make a difference. While our teachers and staff do their best in educating our children, many classrooms and school facilities at the Bridgeville Elementary School District are outdated and inadequate to provide students with the facilities they need to succeed. This is why our children need your **YES vote on Measure S!**

Although Bridgeville Elementary has been well maintained over the years, aging classrooms and facilities must be upgraded since many do not meet 21st century standards. Measure __ would allow the District to improve our elementary school and the quality of education provided to local children. By investing in our school, we can meet today's safety, technological, and educational standards and better our community.

If passed, Measure S will provide funding to make facility improvements at Bridgeville Elementary School by:

- Repairing or replacing deteriorating plumbing and sewer systems
- Modernizing outdated classrooms, restrooms and school facilities; and
- Upgrading inadequate electrical systems and classroom technology

Measure S makes financial sense and protects taxpayers.

- All funds must be spent locally and cannot be taken by the State.
- By law, spending must be reviewed and annually audited by an independent citizens' oversight committee.
- Funds can only be spent to improve our local elementary school, not for administrator salaries.

Measure __ upgrades and renovates old and inadequate school facilities, improves the education of local children, and maintains the quality of our community. That's something we can all support. Please join us and **VOTE YES ON MEASURE S!**
