

## ARGUMENT IN FAVOR OF MEASURE T

Ensure the health and safety of the public, teachers, families and students using Eureka High School's stadium – Vote **YES on T!**

Measure T was placed on the ballot unanimously by the Board of Education as an Emergency Measure.

Independent structural engineers recently determined that portions of Eureka High School are compromised by a deteriorated storm drain system – posing a significant health and safety hazard with potentially fatal implications.

A second public works engineer concurred with these findings. To learn more, visit [www.eurekacityschools.org](http://www.eurekacityschools.org)

Dangerous sinkholes have already developed, resulting in the closure and condemnation of the welding shop to protect students. Additional sinkholes could develop with no warning – creating an imminent health and safety risk to High School students, teachers and staff.

**YES on T** protects the health and safety of Eureka High students, teachers, staff, families and visitors, by:

- ✓ Repairing unsafe conditions, including the failed storm drainage system and deteriorating pipes.
- ✓ Filling and preventing sinkholes.
- ✓ Improving high school buildings to meet current seismic safety standards.

**YES on T** also ensures Eureka High's stadium can be used in the future as an emergency evacuation site in unpredictable or catastrophic emergencies, such as wildfires or PG&E power outages.

Measure T's Fiscal Accountability includes:

- ✓ Independent Citizens Oversight as a watchdog, to ensure all money is spent properly
- ✓ Annual audits for public transparency and review
- ✓ NO money for administrators' salaries or benefits
- ✓ By law, all Measure T funding can only be spent as approved by voters for the benefit of Eureka High, and can't be taken by Sacramento politicians

**YES on T** also qualifies this project for millions in emergency State matching funds that would otherwise go to other school districts.

Keep Eureka High School safe – vote **YES on T!**
